Why Summer Reading?

Kids work hard to learn important skills like math and reading during the school year. But each summer, they can lose up to two months of those hard-earned skills. Cumulative years of summer learning loss puts kids at risk for not graduating high school, and can jeopardize their future. Hutchinson Public Library and The National Summer Learning Association want to shape smarter summers, and brighter futures for our young people, and you can, too. Keep kids learning this summer. Help them get to the library. Pick up tips from the library. Attend programs. Check out books, magazines or downloads. Visit www.hutchpl.org for more information.
